PROFESSIONAL SUMMARY

QA Analyst with more than 3 years of experience in Web and Mobile application testing. Specialized in Functional Testing, Exploratory Testing, Regression Testing, API Testing, and data validation using SQL. Focused on product quality assurance through test case design and execution, defect management, and release validation, collaborating with Agile/Scrum teams to ensure software stability and quality.

My professional goal is to continue developing within the QA field by progressively acquiring knowledge and skills in QA automation, thereby expanding my opportunities for hybrid roles that combine manual and automated testing.

PROFESSIONAL EXPERIENCE

QA Analyst | Temperies

November 2023 – October 2026

Project: International digital fitness and wellness platform.

- Execution of functional, exploratory, and regression testing for Web, Mobile (iOS/Android), and CMS applications.
- Design and maintenance of test cases; validation of functionalities and releases.
- AI testing for conversational chatbots, evaluating responses, conversation flows, and functional behavior.
- Validation of REST APIs using Postman and Swagger, and SQL/PostgreSQL queries to verify data integrity.
- Defect management and tracking in collaboration with Product and Development teams.

QA Analyst | ID For Ideas

June 2023 – November 2023

Project: Digital e-commerce platform.

- Performed functional testing and API validation.
- Designed and maintained test cases while managing and tracking defects.
- Collaborated with development teams to ensure product quality.

QA Analyst Freelance

May 2022 – June 2023
